INTRODUCTION
Yoga hugely described in Ayurvedic text is mainly utilized or prescribed for weight loss or body toning and maintaining. However, now a day as aesthetic science is getting utmost impetus ‘face yoga’ came into light. We keep on worrying about the muscles present in body below neck but what about the 57 muscles those are present only in face. To make them tone and fitter face yoga came into existence. The Hathyog pradipika depicts yoga succeeds by enthusiasm, openness, courage, knowledge, determination and solitude. In Gherand Samhita, some postures of face of mouth was being told in correlation to Pranayam like sahita, suryabhedi, ujjayi, bhastrika, bhramari, murcha and kevali. Doing of purak, kumbhak, rechak enhances pranayu and increases blood circulation of face as well as whole body. Ujjayi Pranayam depicts the posture we do while doing anti- aging exercise of making a mouth like “O”. Face yoga is the daily practice of stretching the muscles in your face. Designed to combat aging, these exercises can help smooth lines, lift the skin around the eyes, tone cheeks and tighten necks. The end result is a more elastic, clear, and healthy face. Face yoga works by stimulating muscles in your face, many of which lie dormant and become weaker as you age. By strengthening the muscles and engaging them in re-
istance training, you can help your body increase circulation to the skin, allowing it to regenerate skin cells and become tighter, counteracting those visible signs of aging. Facial yoga also focuses on relieving tension in the face, which experiences strains you form different facial expressions throughout the day. Engaging the muscles helps to keep the face rejuvenated and relaxed. While it’s not meant to replace anti-aging methods like sun protection, face yoga could help tone your overall features regardless of age.

What is Face Yoga?
Unlike some facial exercises, facial yoga is focused on relaxing and toning the face. In the same way that real yoga works areas of muscle tension, facial yoga is intended to counteract the effects of strained facial expressions to leave both the muscles and skin relaxed and rejuvenated. Face yoga is a series of exercise of muscles to present less of its elasticity and maintain tone. It received attention as an attractive to highly costly butox, filless, peels and all. The end result is younger radiant glowing skin.

Benefits
1. **Slow down ageing process**—As our age increases, wrinkles start developing at festered, around eyes. By exercising face yoga, we get tightened and toned skin.
2. **Prevent ageing**—Fat pads present underneath the skin gets thinner as age progress, with increasing age these fat pads have lesser connection and due to gravity pulls it leads to hollowed cheeks.
3. **Cheaper**—Peoples across the world spend millions every year to get youthful skin, but this is cheaper at home practice so whole in pocket can be avoided.
4. By this we get toned younger and radiant skin due to increased oxygen supply to muscles.

**DISCUSSION**

Facial yoga is trending practice that maintains beauty naturally. Certain facial muscles such as muscles between nose and ear receives little or no exercise so by making various poses helps in their tightening. Anti-aging facial yoga acts as a noninvasive alternative to botox and surgery. These series of exercises help tone various muscles of face such as making “V” tightens orbicularis occuli, making “O” exercises orbicularis oris and mentalis. By making flirtaceous eyes one can tighten frontalis and zygomaticus major. Similarly, the lion pose is a traditional hath yoga pose that stimulates platysma a thin, flat muscle in front of throat. Platysma pulls down when contracted, hence maintaining its firmness. These movements while performing exercises works on hypodermis, dermis and epidermis. By working simultaneously on all these layers, it increases blood circulation allowing more oxygen and nourishment to reach the cells of skin resulting in stimulation of skin cell regeneration. It helps to stimulate collagen and elastin production resulting in more youthful skin. The regular practice of facial yoga produces many benefits such as deep breathing, psychological strength, flexibility, endurance and an overall upliftment in emotional wellbeing.

**CONCLUSION**

Facial Yoga is a completely new concept which deals with the facial muscle, its toning, tightening and helps in preventing ageing effects on face. With the help of some of these yogic postures, the muscles of face get the rich oxygenated blood which nourishes them and strengthens them preventing the skin from sagging, hollowness and fat pads. Regular exercise of facial yoga leads to healthy skin, provides lusture, tone and avoids sagging and elasticity of skin. The process of facial yoga not only enhance physical appearance but also helps keeping nervous and circulatory system fit by purifying and balancing them. It increases one’s self confidence, zeal and makes optimistic.
