Keywords: Cartoons, Culture, Negative effects, Behavior, Language, Violence.

INTRODUCTION
TV Cartoons and animated movies are the most entertaining activities for the kids for over more than 80 years. Felix the Cat the first ever cartoon icon, which started its journey in 1920s. In the next 10 years, Donald Duck, Mickey Mouse and Pluto were the cartoon characters which are being introduced by Disney Brother’s cartoon studios (Box Office Mojo.com, 2004).
Cartoons are playing a vital role in the changing behavior of the growing children. School going children entertain themselves by watching cartoons in spite of playing physical games. Due to this growing children are getting lazier in their daily life. They involve themselves more and behave like the heroes of these cartoons. Kids adopt their way of talking, walking, dressing and eating. Cartoon Network is the most favorite channel in the world. “Cartoon network started its transmission in 1992, and gained record breaking popularity. Shinchan, Doraemon, Motu-Patlu are the most favorite cartoons of the school going children. Violence showed in the cartoons is spoiling the minds of school going children; they always use guns, sword and rods during playing games. “Cartoon programs show very violence part than the serials and comedy tv shows”.

Objectives:
Following are the main objectives of the study:
• To check the impact of Cartoons (Shinchan, Doraemon, Motu-Patlu) on the daily basis activities of the school going children.
• To check the Physical Health of the school going children.
Vinod S. Koravi: Effects of Cartoon Channels on The Behavior of School Going Children - A Survey Study
